Together Building Stronger Communities

Purpose: The ripple effects of the Covid 19 pandemic are wide spread and affect people not only physically but also mentally, socially and spiritually. While the faith community is often a place where people seek help and refuge, many faith community leaders including the faith community nurse often lack the knowledge to identify the needs, to make referrals to appropriate resources or implement appropriate interventions. Those completing the seminar will have increased knowledge of how to identify mental health needs for various age groups that may be related to the impact of the Covid pandemic and identify interventions or referral sources to aid those in need. Related to the effects of the pandemic on health inequities, those attending will be able to identify racial disparities and the effects on health; and identify interventions and resources to improve health across the races.

About Contact Hours

5.5 Contact hours applied for through AnMed Health who is approved as a provider of nursing continuing professional development by the South Carolina Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. Approval valid to 11-30-21.

Exhibitor Information

The SCFCNA welcomes for-profit and not-for-profit exhibitors to the conference.

Exhibitors will have a unique opportunity to share information about programs and services available in SC with people interested in health ministry and/or faith community nursing.

As space is somewhat limited, reservations are accepted on a first-come -first-served -basis. Priority is given to our partnership sponsors and to applicants who follow the guidelines. To access the exhibitor information form and/or to register as an exhibitor on line at www.scfcna.com.
